

# OEL-KLEEN ABSORBENTS

## OIL ONLY Plain WHITE Drum Pad

### OIL - WHITE:

property: Hydrophobic, absorbs hydrocarbon-based liquids (oil), water-repellent

Suitable for: Oils, petrol, diesel, solvents and petroleum

OEL-KLEEN Sorbents offers the right solution for everyday spills and major oil accidents that have a significant impact on people and the environment.

OEL-KLEEN Sorbents provide lasting protection, for example around or under machines and aggregates, and keep the workplace clean and safe. optimale

- Suction capacity for oils and hydrocarbons
- cost-effective
- Safe and non-slip
- absorbs oil, not water
- Absorbs mineral oil, hydrocarbons and other oil-based liquids without absorbing a drop of water!
- No liquid remains, even when the mat is completely saturated.

### Qualities / Type

The higher the durability, the stronger and longer the product can be used and remain in service. Depending on the application, you should therefore consider whether you need extremely high durability or whether normal quality is sufficient for your purposes.

Our nonwovens are available in various qualities:

**PLAIN:** single-layer structure with high absorption capacity

For most everyday applications in the workplace. Highly absorbent binding fleece without additional reinforcement on the top or bottom. Suitable for economical use in cleaning up small spills or for everyday use in cleaning, maintenance and repair work.
