

# OEL-KLEEN ABSORBENTS OIL ONLY SMS Rolle

**OIL - WHITE:** Property: Hydrophobic, absorbs hydrocarbon-based liquids (oil), water-repellent

Suitable for: Oils, gasoline, diesel, solvents, and petroleum

OEL-KLEEN Sorbents offers the right solution for everyday spills and major oil accidents that have a significant impact on people and the environment..

OEL-KLEEN Sorbents provide lasting protection, for example around or under machines and aggregates, and keep the workplace clean and safe..

- Optimal suction power for oils and hydrocarbons
- cost-effective
- Safe and non-slip
- absorbs oil, not water
- Absorbs mineral oil, hydrocarbons, and other oil-based liquids without absorbing a drop of water!
- No liquid remains, even when the mat is completely saturated.

## **Qualities / Type**

The higher the durability, the stronger and longer the product can be used and remain in service. Depending on the application, you should therefore consider whether you need extremely high durability or whether normal quality is sufficient for your purposes.

Our nonwovens are available in various qualities:

**SMS:** Three-layer structure reinforced and lint-free on top and bottom

With their multi-layer structure, they are suitable for the highest demands on durability and cleanliness. Reinforcement of the binding fleece on both sides with a liquid-permeable protective layer ensures maximum tear and abrasion resistance. SMS fleeces are lint-free and therefore ideal for sensitive applications and surfaces..
