

OEL-KLEEN ABSORBENTS

Snakes UNIVERSAL

UNIERSAL – GRAY:

property: Hydrophilic, absorbs almost all liquids

Suitable for: Oils, coolants, lubricants, antifreeze, oil-water emulsions, and other aqueous liquids, as well as non-aggressive acids and alkalis

OEL-KLEEN Universal-snake gray

- Reliably absorbs almost all liquids thanks to its hydrophilic design
- Can be used in emergencies to contain leaks and in continuous use to absorb liquids
- Perfectly suited for collecting liquids from defective systems or vessels
- A particularly flexible shape thanks to the stretchable cover ensures unrestricted usability, even in hard-to-reach places
- Indispensable tool for repairs and maintenance
- A special polypropylene filler ensures particularly good absorption capacity.
- Once absorbed, liquids are reliably bound and can be easily disposed of.
- Universally suitable for use in production and workshops.
