

OEL-KLEEN UNIVERSAL ROLLS

Universal absorbents are hydrophilic. They absorb and contain non-aggressive liquids such as fuels, oils, solvents, and mild chemicals both oil and water-based.* Universal sheets, rolls, snakes, drum toppers and pillows are fast and highly absorbent and keep good tensile properties even when saturated.

Grey color hiding the dirt make these products suitable for applications in machinery maintenance, garage and vehicle maintenance, traffic around machinery, lining of work benches and more.

Used absorbents can be properly incinerated to reduce disposal cost.

Spunbond covering layer from both sides of meltblown to provide high durability, tensile strength and abrasion resistance. Bonded by points.

Excellent absorbency and fluid retention. Dramatically reduced linting.

Delivered in form of rolls, minirolls and sheets.

OEL-KLEEN UNIVERSAL SMS ROLLS

Item No. 1020616

Basic Fabric:	100% Polypropylen
Dimensions:	0,38 x 44 m
Sales Unit:	2 rolls
Weight g/m ² :	184 g/m ² (17-150-17)
Color:	grey
Odor:	neutral
Area m ² / Unit:	33,44 m ²
Weight / Unit:	6,2 kg
Absorption cap. / Unit:	Ø 57 L
	Max. 63 L
