

## OEL – CLEAN FLUID

### Surfactant cleaner for cleaning all solid surfaces

OEL - CLEAN is environmentally friendly, biodegradable, difficult to emulsify

OEL - CLEAN is storable for a maximum of 5 years and retains its physical and chemical properties during this period, provided that the storage does not fall below 0 degrees Celsius.

OEL-CLEAN does not attack any lacquered parts, plastic or rubber parts.

**Do not use with strong heat or sun exposure!**

**Do not use on aluminum or chrome!**

#### Application:

Apply OEL - CLEAN liquid thoroughly into the sprayed area with a broom or a hard brush. In the case of intensive contamination, the operation must be repeated as necessary. OEL - CLEAN liquid can contain max. 1: 30 with water.

The cleaning power is maintained.

**Absorption of the liquid phase by suction or with the tested OEL-KLEEN binders.**
