

OEL-KLEEN Kerasorb

Oil and chemical absorbent based on calcined Moler / diatomaceous earth
GERMAN NORM TYPE III R
FRENCH NORM NF P 98-190 / NF P 90-198

OIL KLEEN Kerasorb products are based on Moler / diatomaceous earth.

Through a comprehensive mechanical and thermal processing without the use of additives, natural granules are made of the highest quality.

OIL KLEEN Kerasorb products are fast-acting and safe to apply (chemically inert). Many types of fluids (such as water, oil, and chemicals) on solid surfaces are immediately absorbed and encapsulated in the porous structure of the granulate.

OIL KLEEN Kerasorb products all have the German "MPA-NRW type III R" certificate and are approved and officially tested for use on traffic areas. This guarantees the highest quality.

Der Umgang mit Chemikalien verlangt höchste Sicherheitsmaßnahmen. Generelle Empfehlung bei

Application for chemicals:

If necessary, on-site aptitude test, Dose the binding agent so generously that the chemicals are completely absorbed, Proper storage appropriate to the substance absorbed

- Binding agents for acids
- Binding agent for basic (alkaline) substances (lyes)
- Binding agent for flammable, combustible liquids
- Binding agent for aqueous and polar liquids

Item No	Name	Content	absorption / bag	Grain Size	Pallet unit on EURO exchange pallet
1000010	Kerasorb	20 kg	approx. 17 Liters Oil	1-3 mm	36
1000011	Kerasorb Super	20 kg	Approx. 20 Liters Oil	0,5-1 mm	36
1001059	Kerasorb Super	16 kg	approx. 16 Liters Oil	0,5-1 mm	40
1000012	Kerasorb Superplus	10 kg	Approx. 12 Liters Oil	0,3-0,7 mm	42

The information is based on our current knowledge and experience.

The technical data sheet describes products in terms of chemical composition.

The information does not have the meaning of property assurances.
