

OEL - KLEEN Surface Power

General-purpose liquid cleaner, neutral to slightly acidic adjusted for deep cleansing mineral, synthetic, vegetable, animal, oil and grease
Cleaning concentrate to remove traces of oil on roads and traffic areas.

OEL - KLEEN Surface Power is suitable for manual and machine use.

OEL - KLEEN Surface Power is suitable for cleaning floors of any kind in rooms, open spaces, pavements and squares (except textile coverings).

Neutral towards asphalt!

Water-soluble and suitable for machine washing!

The recommended use concentration may be normal in polluted soils at 10g per liter of water and, in extreme cases, 100g per liter of water.

The cleaning efficiency increases with increasing water temperature, but this should not exceed 40 ° C in order to ensure the effectiveness of the solvent.

Working in accident cases with a high er initial concentration. Here, even with work (scrub or cleaning machine) the areas affected mechanically . The initial emulsion which forms should be included if possible with an appropriate OEL - KLEEN binder or wet vacuum.

Foaming still shows unused cleaner. It is recommended after each use; rinse the end with clear water.

OEL - KLEEN Surface Power is fully biodegradable.
